

La conservation pérenne :
Exegi monumentum
aere perennius

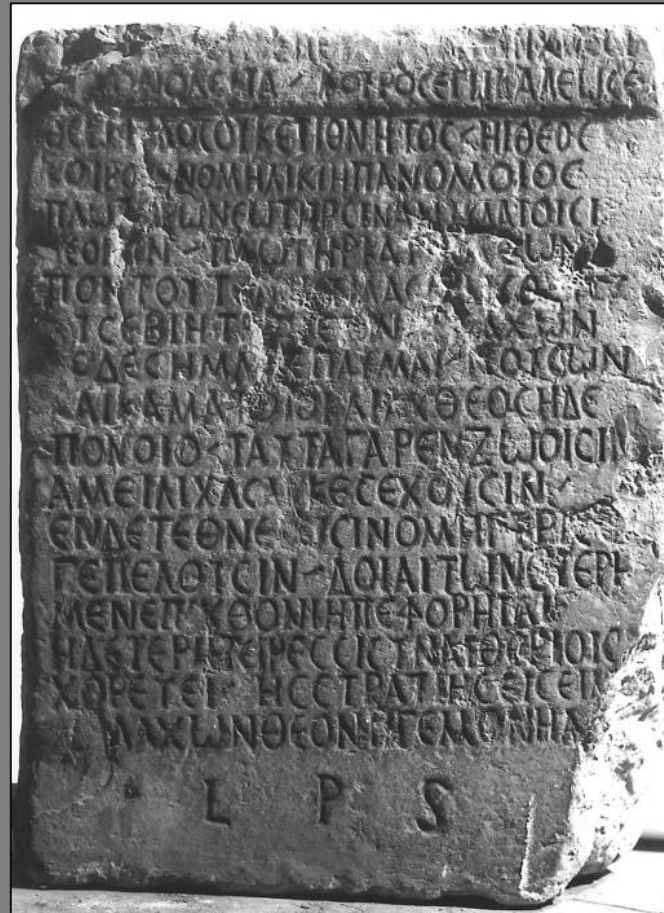

YVES DESRICHARD

Marseille, Journées RNBM, 20 Novembre 2023)

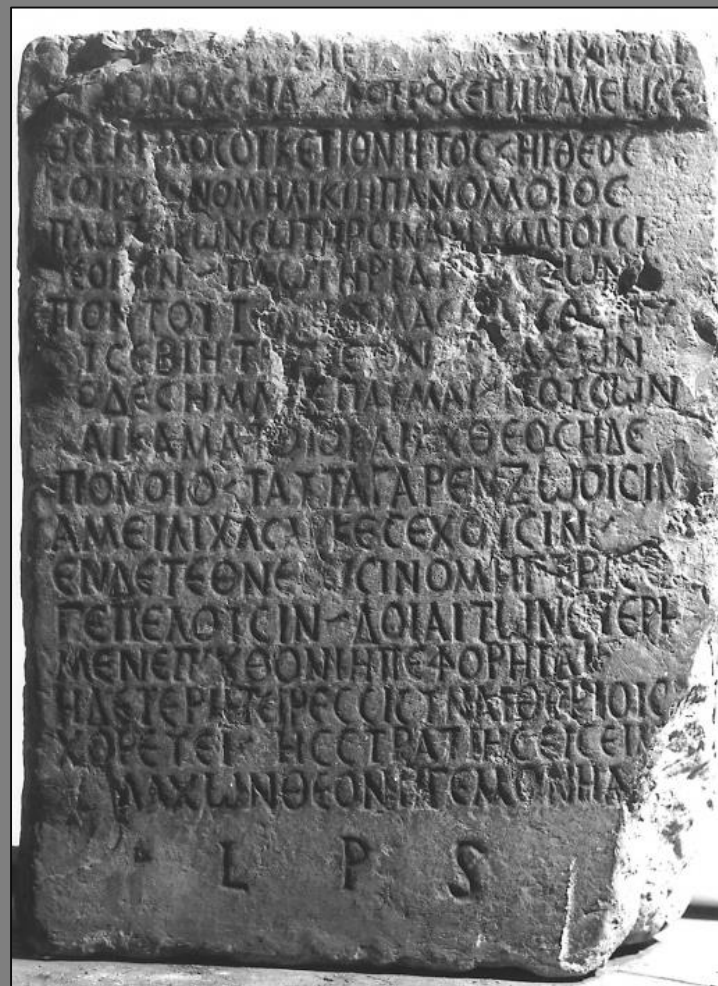

Quod senior loquitur omnes consilium putant

Ne varietur

Ab uno disce omnes

Exegi monumentum aere perennius

Cotidie est deterior posterior dies

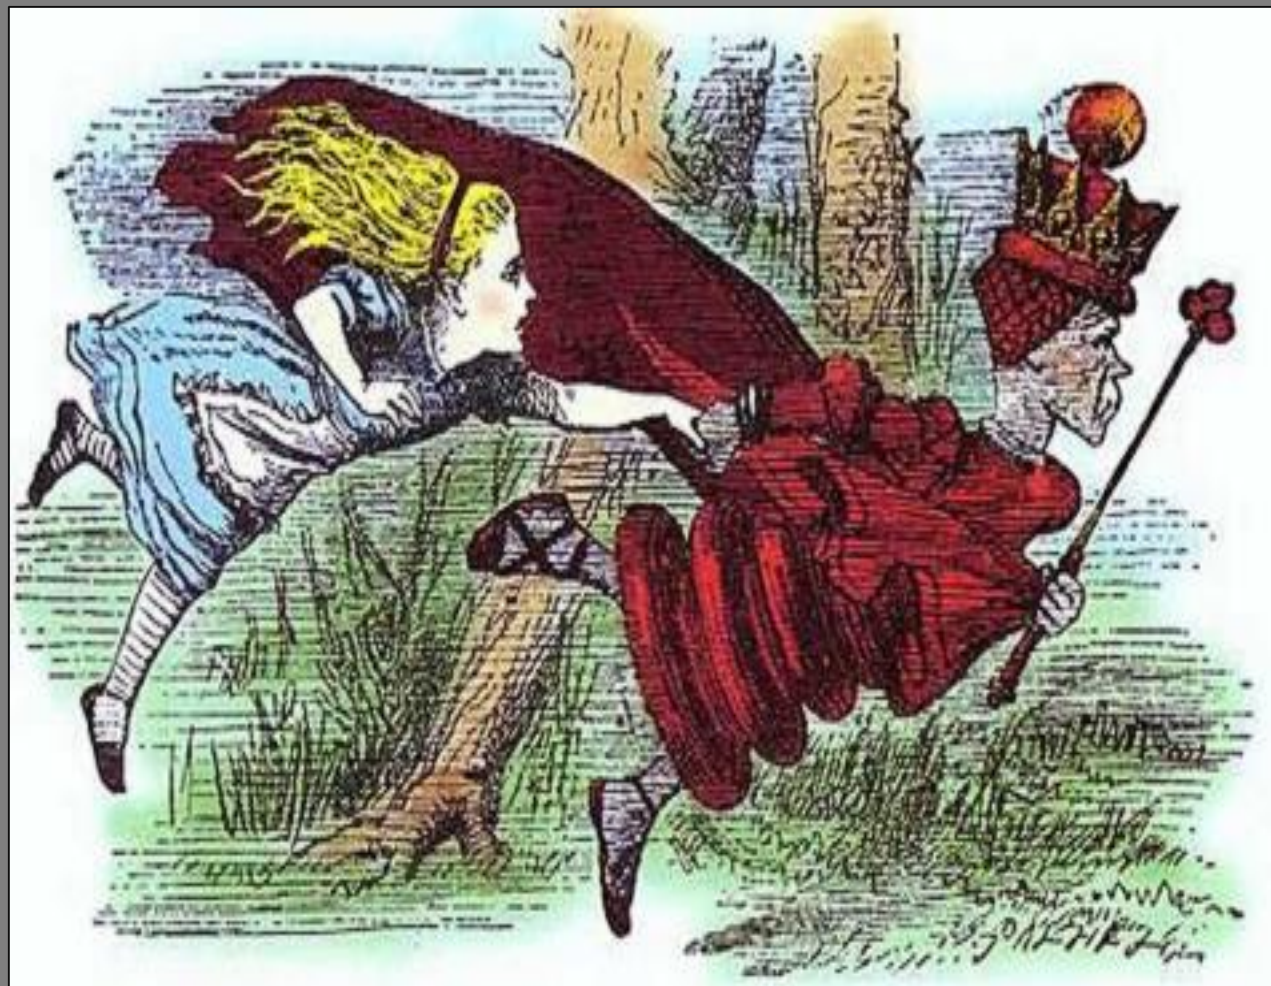

Nascentes morimur, finisque ab origine pendet

Quidquid agis, prudenter agas et respice finem

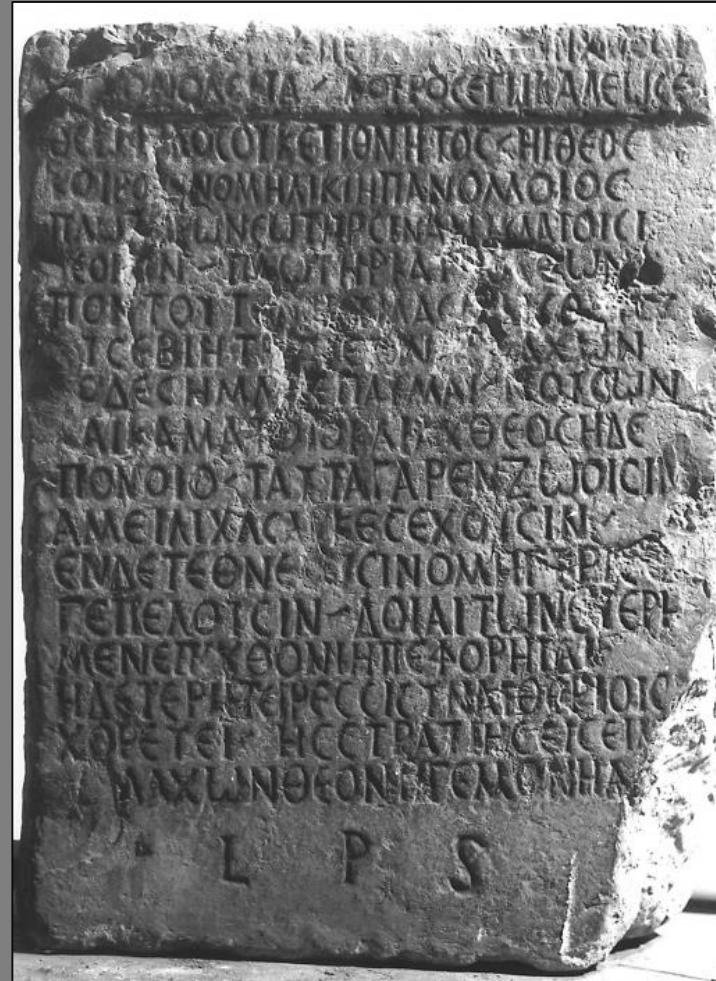

Non progredi est regredi

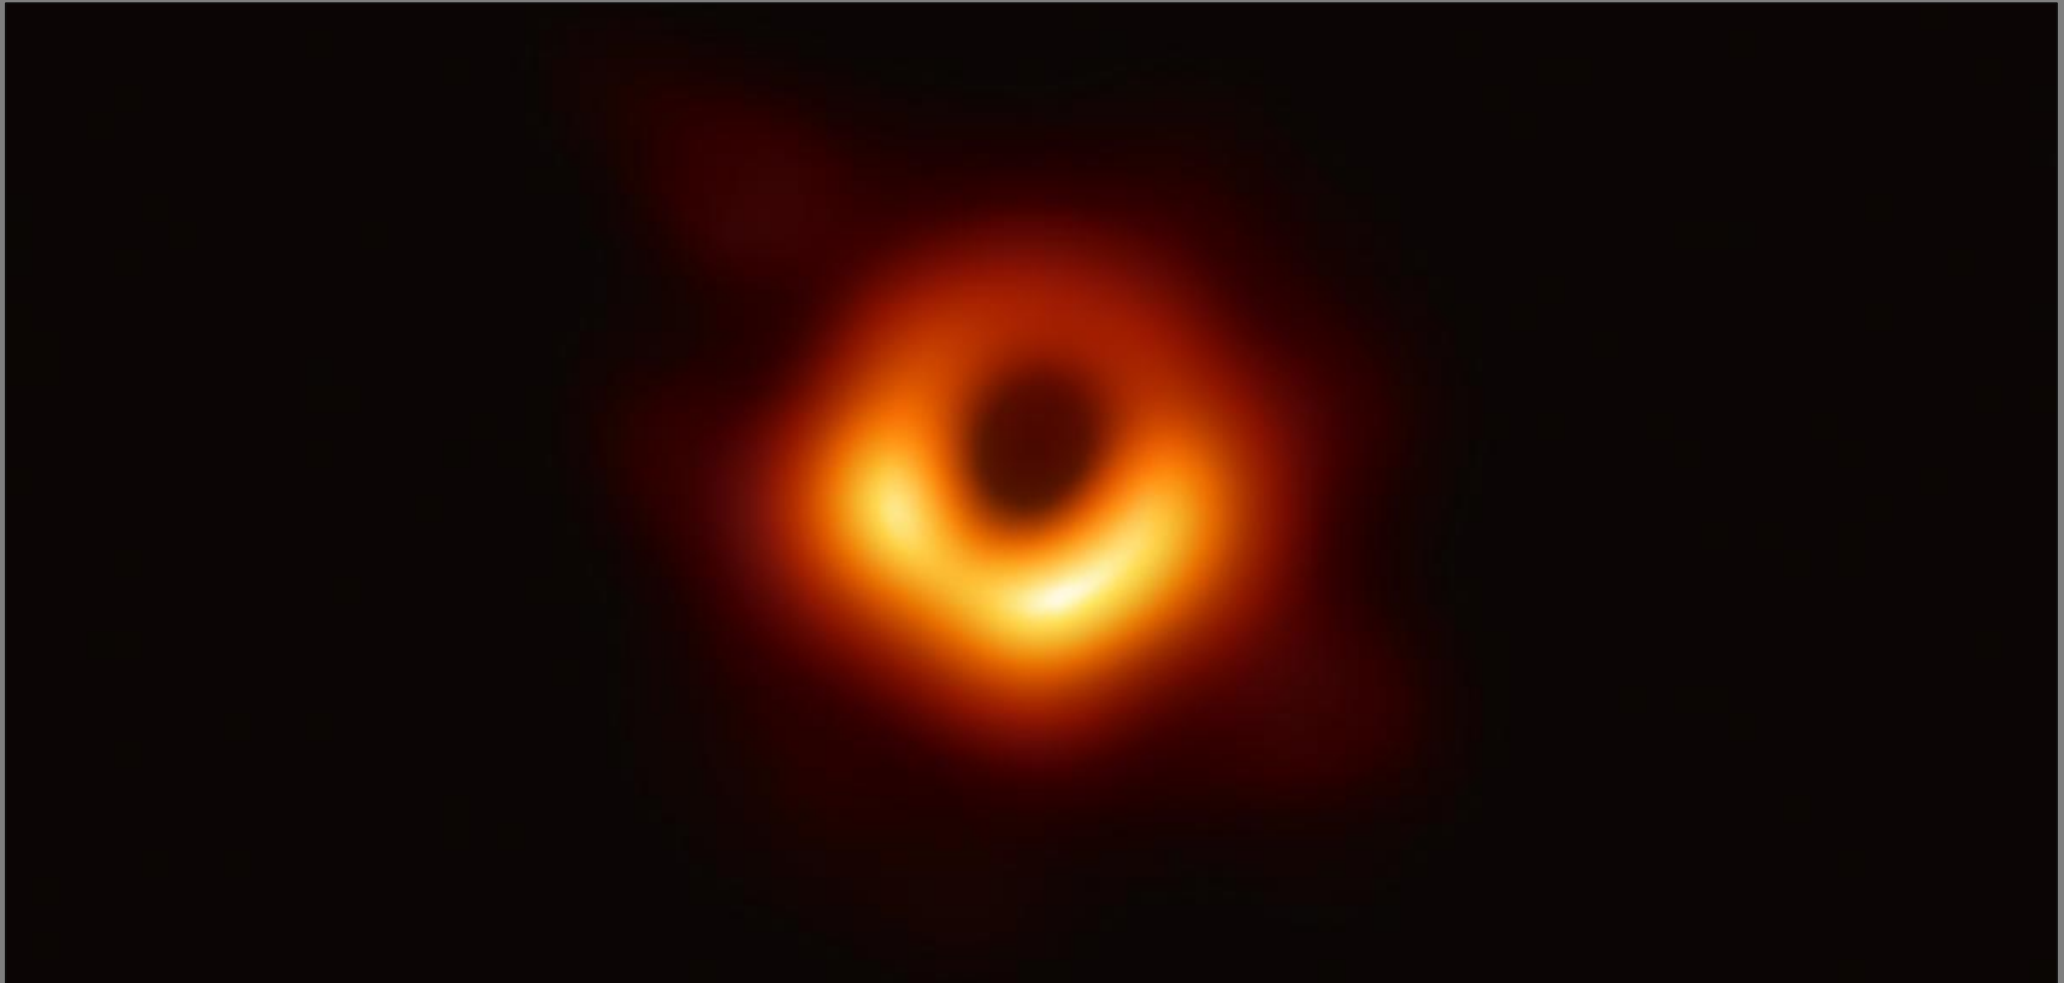

Legere enim et non intellegere negligere est

Locum sibi posuit

Motus in fine velocior

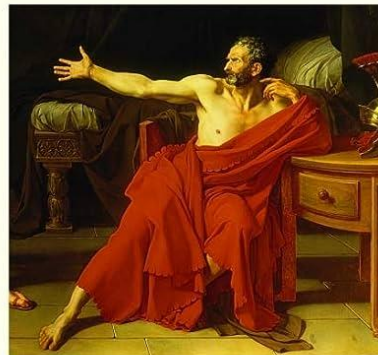

Acta est fabula
